

## Introductory Chemistry (Spring 2026)

This course is designed to help prepare students who plan to take General Chemistry within Integrated Natural Science (INS), or any stand-alone General Chemistry course.

**Faculty:** Paula Schofield, PhD Polymer Chemistry: [schofiep@evergreen.edu](mailto:schofiep@evergreen.edu)

**Credit Equivalencies:** 4 credits of Introductory Chemistry

**Overview:** This in-person course will cover basic principles of introductory chemistry including measurement; the structure of atoms, molecules and ions; chemical bonding; states of matter; solutions; acids and bases; chemical reactions and the quantitative aspects involved. In the laboratory sessions students will gain hands-on experience with some of these chemistry concepts.

**Assessment and Credit:** This is an in-person course; attendance is mandatory. Credit will be awarded based on the quality of a variety of in-class and out-of-class assignments, in addition to laboratory work.

**Prerequisites:** an understanding of high school algebra.

**Location:** Olympia Campus: IN-PERSON

**Meeting Days/Times:** Evenings: Mondays and Wednesdays, 6:00pm-8:00pm

**First Class Meeting:** Monday, March 30, 2026, 6:00 pm, Sem I, 1202

**Textbook:** a free, open access chemistry text will be used and will be available to students on the course Canvas site.
