

Health and Safety Meeting Minutes
April 5, 2006

Attending:

Peter Pessiki-chair
Nicole Allen
Robyn Herring
Betty McGovern
Neal Nelson
Joe Pollock

1. The accident report for March was reviewed. There were only two accidents, both occurring while walking.
2. The March minutes were approved.
3. The revision to the smoking policy submitted to John Hurley was sent back. He suggested that instead of delineating the "core campus" with the official campus map, that we simply list the buildings that would delineate the area. This would make future changes easier.
4. A regular sweeping of Evergreen forest encampments was discussed. Although a student was enlisted to make a map of these camps last summer, the project was not finished. Another student has expressed interest, and will start the project this spring. Also, a H&S member will also report any encampments encountered during regular walks on forest trails.
5. The next meeting will include a tunnel tour and inspection of egress routes through tunnel doors.
