

Health and Safety Committee Minutes

5 March, 2014

No attendance list available.

- Matt talked about new members for the committee.
- The GSU will send out a survey on the proposed tobacco sale ban using Moodle, and Matt will report on the progress (if any) of the survey.
- We will have EBI survey results mid-March.
- The committee viewed and discussed the accident report.
- RAD is still working on the collection of needles/sharps and will make a proposal to the committee at a later date.
- Smoking Town Hall meeting:

Turnout was low but active. Four were in favor of the status quo, and thirteen were in favor of a total tobacco ban. Approximately twenty-five people attended all or part of the meeting.

Zita will follow up with Rob Smurr regarding faculty actions.

Nicholas asked about how to discourage smoking and if stronger measures would produce a backlash. John McCain referred to the backlash of NYC and nanny state scenarios, and mentioned the need for support structures.

Andrea Seabert suggested that the committee brainstorm scenarios and framework via e-mail.

- Nicholas talked about the possibility of the sale of (Brand L?) condoms on campus.

The meeting ended.
