

December 2011 Meeting Minutes

Attendees: Matt Lebens, Joe Pollock, Mindi bliss, Robyn Herring, Beth Hesketh, Lana Brewster, Bonnie Schmidt.

November injury report: Revisit in January.

Next meeting: January 11th, 2012

Smoking policy: Matt talked to Andrea Seabert about the on campus smoking policy.

Andrea was only doing it on a temporary basis and mentioned that the health and safety committee should connect with the wellness committee.

A student (Jake?) is interested in making a non smoking campus. Beth is going to connect him with Matt to start working on something.

Joe Pollock mentioned that he has been seeing students smoking outside the quiet lounge in the CAB building and on the way to and from C lot.

Overall more students have been seen walking around campus smoking.

Lighting at Fireweed and overflow lot:

Casey sent Matt an email concerning the lack of light on Fireweed road and the "temporary" parking lot.

Mindi mentioned that the over growth is blocking lights.

The committee decided it was a priority to light the parking lot and make a shoulder along Fireweed road.

Matt will draft a proposal and send it to John Hurley.

The idea of including the Clean Energy Committee was mentioned. Environmentally friendly lights (PV ray). Matt will talk to Scott from RAD to write up a grant. Global Green?

Suspended Ops.:

It was mentioned that Health and Safety should work with the other committees to get on the same page as everyone before making any decisions.

Until that time it will be considered a table issue.
