

Minutes 10/3/12

Health and Safety October 3rd, 2012

Attendance: Matt Lebens, Bonnie Schmidt, Robyn Herring, Officer Pam Garland, Greg Dasso, Elizabeth McHugh

Thank you, Greg, for reviewing the Lab safety guidelines for the group.

The manual is online: blogs.evergreen.edu/labstores

“What happens in the hood, stays in the hood.”

On campus smoking areas:

-There is no longer a smoking area at the HCC.

-Currently the only available place to purchase cigarettes is at the Corner Store at HCC. AS we are working toward a smoke free campus, this availability for cigarette purchases is negatively impacting our goal.

-Health Services is posting information at the smoking areas.

-A curfew has been placed on the smoking areas: Monday-Thursday 7am-11pm and Friday-Sunday 7am-1am.

-If making Evergreen a non smoking campus is our future goal the Health and Safety committee should connect with the Wellness committee and collaborate.

Incident report: 24 between 06/2012-10/2012

Outreach event: Influenza prevention

Health and safety committee memberships: Staff and Faculty numbers are down.
