

Health and Safety Committee Meeting Minutes
April 6th, 2011

Attendees: Tim Marron, Matt Lebens, Mindi Bliss, Robyn Herring, Marshall Robinson, Nicole Allen, Joe Pollock, and Jaycie Osterberg

1. March Injury Report: Only 4, all minor
2. Sem I smoking tent:
 - Supposed to be done at the end of the year
 - At a halt because of new proposal for a staircase to be built for safe and quick access to tent
 - The quicker way to get there is a steep unpaved hill that people have been going down. If they get hurt it is still our responsibility
 - Ideas: Force people to go on the paved route by building a fence that will block off the slope. Possibly get recycled material from Driftwood. Matt will send out an e-mail to Paul and CC John Hurley.
3. Electronic Cigarettes:
 - No conclusive evidence on this new cigarette and its harmful effects
 - Unanimous decision that it should not be allowed in the classroom
 - Doesn't exactly fit under the umbrella terms for our policies
 - Robyn will attempt to add "electronic cigarettes" to the policy
4. Anti-Smoking Campaign:
 - Andrea Seabert still puts out her campaign Fall and Winter quarters
 - We are missing our campaign during the Spring quarter, may follow up
 - Smoking cessation ends June. Sending out e-mail to students about opportunity
5. Slow Emergency Response to inclement weather:
 - We should be closed when all the other surrounding campus' are closed
 - Campus was not a safe environment
