

# SUMMER INTERNSHIP

WETLAND ECOLOGY AND MONITORING TECHNIQUES INTERNSHIP WITH DEPARTMENT OF TRANSPORTATION

**\$5,400.00** STIPEND FOR THE ELEVEN-WEEK WORK EXPERIENCE  
(JUNE 22 -SEPTEMBER 3)  
IN OLYMPIA, WA

This internship program provides hands-on field experience collecting environmental data gathered from WSDOT wetland compensatory mitigation sites. We use quantitative and qualitative monitoring methods to conduct vegetation surveys. Most field activities focus on vegetation sampling and plant identification. We include other activities such as evaluating soils, hydrology, and wildlife as time allows.

## EXPECTATIONS & PREREQUISITES:

- Must commit to participating in both field and instructional activities Monday - Thursday for both summer sessions.
- We provide transportation to monitoring sites, but we expect interns to meet us in Olympia each morning.
- Must enroll in both summer sessions at The Evergreen State College and make payment of appropriate tuition. Please see Evergreen's website for information regarding tuition rates.

## HOW TO APPLY

- Fill out an application form, found on our website. Please **scan the QR code** and navigate to "How to apply" to find the application form.
- A complete application packet includes:
  - Application form
  - Resume
  - List of three references
- **Deadline: April 2, 2026 at 5:00 P.M.**

Send your resume, application form, and references to:
