

MEDICAL PHYSICS

APPLIED PHYSICS TECHNOLOGIST

Northwest Medical Physics Center

Physicists at NMPC provide professional medical physics services to healthcare and research centers throughout the Pacific Northwest. Undergraduate seniors and recent college graduates are encouraged to apply for the Applied Physics Technologist program, where they will join this dynamic group and participate in commissioning and other clinical medical physics projects. APTs enjoy a competitive compensation package including benefits, while gaining valuable experience to prepare them to apply to accredited medical physics graduate school programs.
