

# WOVEN WOOL

RESILIENCE IN COAST SALISH WEAVING

SEPTEMBER 13, 2025 – AUGUST 30, 2026

**Woven in Wool: Resilience in Coast Salish Weaving** showcases both historical and contemporary woven items — from blankets and tunics to hoods and skirts.

Journey through the seasonal cycle of weaving, from gathering materials and spinning wool to dyeing with natural ingredients and weaving intricate designs. Along the way, learn firsthand from curating weavers and gain insight into the deep cultural and scientific knowledge embedded in every strand.

*The Burke Museum is proud to be collaborating with the Coast Salish Wool Weaving Center, whose members are the lead curators for this exhibition.*

## INDIGENOUS PREVIEW

September 11 | 6 – 9 PM

## MEMBER PREVIEW

September 12 | 6 – 9 PM
