\* The QuaSR retreat is Monday morning. You will be done in time for EM lecture/discussion. There will be a scheduled make-up session for Quixam E5 from 3 – 5pm that day, and more alternate arrangements can be made as needed.

\*\* If you are exiting the program at the end of winter quarter, then in this week, you only take Quixam E5, arrange to take Quixam C5.5, and schedule a conference; you are not obligated to attend any other class session and are especially invited to come to the potluck.

\*\*\* "Conference Week"'s Thursday EM/CM/QM session is optional, but there to help you shake off rust and complete your Week 21 CSS contributions and Problems Sets should you still be working on them.
